	5 o'clock Appreciation of Music	Chemistry 2	

ATTENDANCE ON LECTURES

Students are expected to attend their lectures regularly and promptly. Any absence from class tends naturally to lower the student's standing. After a specified number of absences, whatever the cause, students must make up the work lost by means of written tests.

EXAMINATIONS

General examinations are held twice a year, in January and in May. Failure to attend any of these examinations, for any cause other than sickness, results in the dropping of the delinquent from the student body. In case of absence from examination because of sickness, the student will be given an opportunity to take the examination in question.
